CURRENT RESOLUTIONS

C-02-1 MTEA alignment with the Standards for Technological Literacy

WHEREAS, there is no comprehensive K-12 plan for Technology Education in place in Minnesota, and

WHEREAS, many administrators and Technology Education Teachers are looking for direction and help in developing new Technology Education programs, and

WHEREAS, there is inadequate staff available from the Minnesota Department of Children, Families and Learning to provide assistance with Technology Education curriculum writing and local program development, and

WHEREAS, no funding is presently allocated by the Minnesota Department of Children, Families and Learning for the purpose of Technology Education curriculum development, and

WHEREAS, members of the MTEA have been using their own funds for Technology Education curriculum writing, be it therefore

RESOLVED, that the Minnesota Department of Children, Families and Learning provide the funds and staff necessary for the development and implementation of a comprehensive K-12 Technology Education curriculum plan and the in-service training of instructors in the State of Minnesota to align with the Standards for Technological Literacy.

C-02-2 Teaching Technology Education within the Graduation Standards

WHEREAS, it has become increasingly important that we have a technologically literate society, and

WHEREAS, Technology Education will deliver the Minnesota Standards, be it therefore

RESOLVED, that Technology Education, must be taught by an appropriately licensed teacher, governed by the rules and regulations under the Minnesota Board of Teaching.

C-02-3 **Recognition of Career and Technical education programs**

WHEREAS, the MTEA believes that the needs of all students have not been addressed in the past, and

WHEREAS, the Minnesota Legislature enacted recent legislation which established the umbrella Education and Employment Transitions Council to oversee a youth apprenticeship programs, and

WHEREAS, Career and Technical education programs encourage students to make realistic career choices, and

WHEREAS, the Minnesota and United States Legislatures have allocated funds for the development of youth apprenticeship and career and technical education programs, and

WHEREAS, the United States Senate has introduced legislation under the "Carl D. Perkins III Act" which supports and will allocate funds for individual states to support career and technical education programs, be it therefore

RESOLVED, that the MTEA supports state and national efforts to establish and strengthen; Career and Technical Education, Tech Prep, and Youth Apprenticeship programs in Minnesota.

C-02-4 **Minnesota State Teacher Licensure**

WHEREAS, the MTEA has adopted the name Technology Education to identify the discipline that it teaches, and

WHEREAS, the ITEA as the International professional association in Technology Education has formally adopted the name of Technology, and

WHEREAS, the National Council for the Accreditation of Teacher Education (NCATE) has identified Technology as the name of the discipline for accrediting teacher education programs formally referred to as Industrial Arts, Industrial Education, and Industrial Technology, be it therefore

RESOLVED, that the Board of Teaching licensure designation and the department title used within Minnesota School Districts, be Technology Education.

C-02-5 **Recruitment of Technology Education Teachers**

WHEREAS, the number of position openings annually in Technology Education in Minnesota significantly outnumbers the number of teacher education graduates in Minnesota, and

WHEREAS, school districts are finding it increasingly difficult to hire appropriately licensed technology teachers, and

WHEREAS, the shortage of qualified technology teachers is also occurring at the national level, be it therefore

RESOLVED, that the MTEA membership supports and encourages the efforts of the universities in Minnesota which prepare Technology Teachers, and encourages high school students to consider entering the technology teaching profession.

STANDING RESOLUTIONS

S-02-1 The MTEA membership has changed its name to the Minnesota Technology Education Association, and believes that Technology Education can help students apply tools, materials, processes and technical concepts safely and efficiently, discover individual talents, solve problems, apply creative abilities, deal with forces that influence the future, adjust to a changing environment, become wise consumers, and make good career choices. The MTEA further supports the twenty content organizers found in the Standards for Technology Literacy document that helps provide these student activities, and adopts the following definition of Technology Education:

A study of technology, which provides an opportunity for students to learn about the processes and knowledge related to technology that are needed to solve problems and extend human capabilities.

S-02-2 The MTEA believes that all educators and all professional associations should work together in the education of the youth of our schools to better prepare them for an ever changing technological society.

S-02-3 The MTEA believes that Technology Education programs offer one of the best educational opportunities which help young people grow to the maximum of their individual abilities; therefore, the Association believes that a program of Technology Education should be offered in all secondary schools in the state and also be included as a component of the elementary curriculum.

S-02-4 The MTEA believes that excellence in teaching is the foundation of a good educational system. The Association, therefore, recommends that only persons with a minimum of a bachelor's degree in Technology Education be permitted to teach Technology Education.

S-02-5 The MTEA believes that Technology Education programs are improved when provided with professional supervision. To this end, the MTEA recommends that full time supervisors of Technology Education be employed at the state level and in programs at the local level.

- S-02-6 The MTEA believes that all students should develop an appropriate level of technological literacy through participation in comprehensive programs of Technology Education in the schools of our state, including an introductory experience at the elementary level, exploration at the junior high/middle school and advanced study, readily available at the high school.
- S-02-7 The MTEA believes that maximum efforts from technology educators should be directed toward the support and development of Technology Education student organizations at all levels.
- S-02-8 The MTEA believes technology educators should inform all segments of society, including a business-industry-education partnership, of the valuable contribution of Technology Education to the youth of our state.
- S-02-9 The MTEA and the ITEA believe and strongly support the philosophy of general education for the subject area of Technology Education. We also believe that funds appropriated for secondary vocational education programs (i.e. Perkins funds) should be expended for the support and enhancement of K-12 Technology Education Programs.
- S-02-10 The MTEA believes that conferences provide the Technology educator with opportunities to participate in workshops, presentations, and dialogue with leading technology education teachers, supervisors, and teacher educators. Conferences enable the technology educator to obtain a wealth of insights, ideas, and materials which will greatly assist in implementing a responsive Technology Education program for students and community. Therefore, school administrators should be encouraged annually to send their Technology teachers to the Minnesota Technology Education Association and the International Technology Education Association Conferences.
- S-02-11 The MTEA is the exclusive representative of Technology Education in Minnesota, and is affiliated with the International Technology Education Association, the International representative for Technology Education teachers. Therefore, any policies and procedures regarding Technology Education at the State level should be formulated with input from the MTEA.
- S-02-12 The MTEA believes that there are many benefits and reasons for its members to join the International Technology Education Association (ITEA) and encourages all members to join the ITEA.
