

ITEEA's Engineering by Design open to Minnesota teachers.

The Minnesota Technology and Engineering Educators Association (MTEEA) in partnership with St. Cloud University and ITEEA have sponsored all Minnesota educators to join and access this free technology and engineering preK-12 STEM-based curriculum. The Minnesota Engineering byDesign™ curriculum has many exciting features that include complete online lesson plans, presentations, and units to each at every grade level. Check out the directions below to gain access to this curriculum today and use the rest of this school year. This is the “download version”, you will need to download the coursework and upload into your learning Management system. A document will be provided to all that choose to use this coursework.

Login at www.iteea.org, click on Login, enter your Username and Password. If you are a new user to the website, click on Create Account and complete the form. You will receive an email, almost immediately, that you have 48 hours to activate your account. Should you need assistance creating your account, click:

<https://www.iteea.org/helpcenter.aspx>. If you do not receive the confirmation email in your inbox, check your Spam/Junk folder for an email from iteea.org. Once you login, click on Global Stem (icon on left), click on STEM by STATE (icon on right), click on Minnesota on the map, and you will be on the Minnesota page. Once landed, there is a link at the top on the Profile tab, "Click Here for Directions to Access Engineering byDesign™ Curriculum" which will guide you through the process of requesting curriculum access.

[Click here](#) for further information about the above process.

[Click here](#) for a file called “Unwrapping an Engineering by Design course download”. It will give you a better idea of what is in each download and what you will find in the course materials.

Questions, email Mike Sandell at MSandell@isd2144.org
